A great silence has settled upon a drowned world. In the final battle of their final war, the massive citysubs Universalis and Population reduced each other to ruins. One lays wrecked on the seafloor. The other, beached and lifeless, litters the island of pristine polar ice it tried to destroy. Pockets of survivors huddle together. On the frigid surface, Ralla Gattley and Thom Vargas cling to life and each other. Below, the

how this new era results from a convergence of forces, ranging from the explosion of online information sharing to the emergence of the ethical consumer and the arrival of civic-minded Millennials. Across the globe, people are choosing the companies in their lives in the same way they choose the guests they invite into their homes. They are demanding that companies be "good company." Proof is in the numbers. The authors created the Good Company Index to take a systematic look at Fortune 100 companies' records as employers, sellers, and stewards of society and the

planet. The results were clear: worthiness pays off. Companies in the same industry with higher scores on the index—that is, companies that have behaved better—outperformed their peers in the stock market. And this is not some academic exercise: the authors have used principles of the index at their own investment firm to deliver market-beating results. Using a host of real-world examples, Bassi and company explain each aspect of corporate worthiness and describe how you can assess other companies with which you do business as a consumer, investor, or

of 10 new businesses fail within the first three years. Even only one in ten venture-backed startups succeeds, and venture capitalists turn down some 99% of the business plans they see. The odds appear to be stacked against you! But entrepreneurs often make the same avoidable mistakes over and over. Why Startups Fail can help you beat the odds and avoid the pitfalls and traps that lead to early startup death. It's easy to point to successes like Apple, Google, and Facebook. But the biggest lessons can come from failure. What decisions were made, and why? What would the founders
