Saving Arcadia: A Story of Conservation and Community in the Great Lakes is a suspenseful and intimate land conservation adventure story set in the Great Lakes heartland. The story spans more than forty years, following the fate of a magnificent sand dune on Lake Michigan and the people who care about it. Author and narrator Heather Shumaker shares the remarkable untold stories behind protecting land and creating new nature preserves. Written in a compelling narrative style, the book is intended in part as a case study for landscape-level conservation and documents the challenges of integrating economic livelihoods into conservation and what it really means to “preserve” land over time. This is the story of a small band of determined townspeople and how far they went to save beloved land and endangered species from the grip of a powerful corporation. Saving Arcadia is a narrative with roots as deep as the trees the community is trying to save; something set in motion before the author was even born. And yet, Shumaker gives a human face to the changing nature of land conservation in the twenty-first century. Throughout this chronicle we meet people like Elaine, a nineteen-year-old farm wife; Dori, a lakeside innkeeper; and Glen, the director of the local land trust. Together with

hundreds of others they cross cultural barriers and learn to help one another in an effort to win back the six-thousand-acre landscape taken over by Consumers Power that is now facing grave devastation. The result is a triumph of community that includes working farms, local businesses, summer visitors, year-round residents, and a network of land stewards. A work of creative nonfiction, *Saving Arcadia* is the adventurous tale of everyday people fighting to reclaim the land that has been in their family for generations. It explores ideas about nature and community, and anyone from scholars of ecology and conservation biology to readers of naturalist writing can gain from *Arcadia's* story.

unique destinations across Michigan, including Detroit, the scenic Upper Peninsula, Sleeping Bear Dunes, and Tahquamenon Falls, this board book is a celebration of places and things that make the Great Lakes State special.

This handbook offers a systematic exploration of current key topics in travel writing studies. It addresses the history, impact, and unique discursive variety of British travel writing by covering some of the most celebrated and canonical authors of the genre as well as lesser known ones in more than thirty close-reading chapters. Combining theoretically informed, astute literary criticism of single texts with the analysis of the circumstances of their production and reception, these chapters offer excellent possibilities for understanding the complexity and cultural relevance of British travel writing.

"Mr. Visidi, you realize there is no credible account of a shark attack in the roughly 4,000 year-life of Lake Erie. There are no sharks in Lake Erie," pronounces Officer James Mylett of the Ohio Department of Natural Resources (ODNR). Frankie Visidi has a slightly different point of view-that afternoon, his beloved black lab, Priscilla, was killed by a huge bull shark while they were swimming off his boat, anchored on Kelleys Island Shoal. Director of the Museum

of Lake Erie in Sandusky, Ohio, and Master Gardener, Susan Massimino has been called in by her police chief cousin to help identify the flowers present at the murder scene of William Krupp, a prominent local farmer. Could the sudden presence of bull sharks (equally at home in fresh water or salt water) and the murder of Krupp be related? Author John Hildebrandt knows his beloved Lake Erie. His descriptions and reflections of life in what's known as the "western basin," ring true. In a 40 year-long career with Cedar Point, retiring as general manager, he saw the lake every day. He knows the history, the plant and animal life, the weather, and especially the people who choose to live here. At the center of the story is Paul Gutten, aka Z, a German-Swiss businessman who also directs an Eco-terrorist organization secretly funded by stolen Nazi gold, now hidden in a cave in Bavaria. Z is fascinated by sharks and believes their sudden presence in western Lake Erie will focus attention on Lake Erie and its many environmental problems. He secretly arranges for six adult bull sharks to be introduced to Lake Erie. The sharks, of course, will be sharks and they leave a trail of blood and death in and around the Lake Erie Islands. The standard refrain: "There are no sharks in Lake Erie" is stood on its head when several bull sharks attack a group of kayakers in plain view of tourists aboard the Jet Express ferry. The news goes world-wide. Z and Susan

move quickly toward romance until Susan discovers evidence that Z may well be the killer of William Krupp? This story is constant action, moving from lake to farm and from Bavaria to Ohio. The characters are vivid and compelling. Sharks in Lake Erie is part thriller, part police procedural, part introduction to life on Lake Erie. In the end, the sharks call the shots.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put
