#1 NEW YORK TIMES BESTSELLER America's top-rated cable news host offers his first book in over ten years: a look at America's fight against those who would reverse our tradition of freedom. America is great for a reason. Built on principles of freedom, rugged individualism, and self-sufficiency, no country has ever accumulated more power and wealth, abused it less, or used that power more to advance the human condition. And yet, as America blossomed, leftwing radicalism and resentment festered beneath the surface, threatening to undermine democracy in the form of social justice warriors, the deep state, and compromised institutions like academia and the mainstream media. With the Democratic victory in 2020, we are now at risk for a big step toward full-blown socialism along with the economic dysfunction and social strife that are its hallmarks. With radical Democrats demanding the Green New Deal, socialized medicine, abortion on demand, open borders, abolishing the Electoral College, packing the Supreme Court, and an end to free speech, our great nation will be fundamentally transformed beyond recognition. Ronald Reagan once said, [Freedom is but one generation away from extinction,] and his words have never rung truer. In Live Free or Die, Sean demonstrates why now is an All Hands on Deck moment to save the Republic.

As Americans, we face two fundamental questions: First, are we truly prepared to fight this new war to wipe out terrorism and terrorist regimes, and win it decisively -- no matter what sacrifices it requires or how long it takes? Second, are we once again prepared to teach our children the fundamental principles and values that make this country great -- the values that make this country worth fighting for, living for, and dying for? Sean Hannity is the hottest new phenomenon in TV and talk radio today. His gutsy, take-no-prisoners interviews and commentary on the Fox News Channel's Hannity & Colmes have made him one of cable television's most popular personalities. And his ascendance to the top of the talk radio world with ABC Radio's The Sean Hannity Show has won him a huge and devoted following that includes not only conservatives but anyone else who values straight talk over pandering and excuses. Now, in Let Freedom Ring, Sean Hannity offers a survey of the world -- political, social, and cultural -- as he sees it. Devoting special attention to 9/11, the war on terror, and the continuing threat we face at home and abroad, he makes clear that the greatest challenge we have to overcome may not be an attack from overseas, but the slow compromising of our national character. And he asks why, particularly in this time of war, should we entrust our future to the voices of the Left -- the very people who have spent decades ravaging so many of our core values and traditions? Our nation, as Hannity reminds us, was founded on the idea of freedom. And in order to protect our freedoms, he argues, we must stand vigilant against liberal attempts to compromise our strengths. From our military and intelligence forces, to our borders and airports, to our unified commitment to root out terrorists at home and abroad, he reveals how our strongest lines of defense have come under attack -- by left-wing voices within our government, media, schools, and elsewhere. And he shows how even domestic issues like taxation, education, patriotism, and the family have been exploited by liberals with their own agendas -- with potentially disastrous results. Filled with the commonsense commentary and passionate argument that have made Sean Hannity the most compelling conservative voice since Rush Limbaugh, Let Freedom Ring is an urgent call to arms. For, as Hannity warns, "We are engaged in a war of ideas. And civilization is at stake."

Suggests that conservative talk radio blossomed after the FCC voted to stop enforcing the Fairness Doctrine, and expresses concern that the Obama administration and Democratic Congress may reinstate it to stifle free speech.

Nearly three years have passed since that tragic day in September. Since then, our wounds have healed, but our senses and memories have dulled. At first, the nation rallied behind its leader. But by the time the confrontation with Iraq presented itself, our courage and moral certainty seemed to fade in the face of partisan bickering and posturing. Now the political left and the Democratic Party are trying to use the demanding aftermath of the war to exploit our national cause for their own political advantage. How could we allow ourselves to forget so soon? --from Deliver Us from Evil Sean Hannity's first blockbuster book, the New York Times bestseller Let Freedom Ring, cemented his place as the freshest and most compelling conservative voice in the country. As the host of the phenomenally successful Hannity & Colmes on the Fox News Channel and The Sean Hannity Show on ABC Radio, Hannity has won a wildly devoted fan base. Now he brings his plainspoken, take-no-prisoners style to the continuing War on Terror abroad -- and liberalism at home -- in Deliver Us from Evil. "Evil exists," Hannity asserts. "It is real, and it means to harm us." And in these pages he revisits the harsh lessons America has learned in confronting evil in the past and the present, to illuminate the course we must take in the future. Tracing a direct line from Adolf Hitler and Joseph Stalin through Saddam Hussein and Osama bin Laden, he reminds us of the courage and moral clarity of our great leaders. And he reveals how the disgraceful history of appeasement has reached forward from the days of Neville Chamberlain and Jimmy Carter to corrupt the unrepentant leftists of the modern Democratic Party -- from Howard Dean and John Kerry to Bill and Hillary Clinton. As Americans face the ongoing war against terrorists and their state sponsors around the world, Sean Hannity reminds us that we must also cope with the continuing scourge of accommodation and cowardice at home. With his trademark blend of passion and hard-hitting commentary, he urges Americans to recognize the dangers of putting our faith in toothless "multilateralism" when the times call for decisive action. For only through strong defense of our freedoms, at home and around the world, can we preserve America's security and liberty in the dangerous twenty-first century.

Barack Obama and his radical team of self-professed socialists, fringe activists, and others are trying to remake the American way of life. They have used their new Democratic majority to launch an alarming assault on our capitalist system[while abandoning the war on terror, undermining our national security, and weakening our position in the eyes of our enemies. The "candidate of change" is threatening to change our country irreparably, and for the worse!if we don't act to stop him now. Sean Hannity has been sounding the alarms about Obama and his agenda from the start. Now!in his first new book in six years!he issues a stirring call to action. Hannity surveys all the major Obama players[from the president's affiliation with radical theology to his advisers' history of Marxist activism, repression of the media, support for leftist dictators, and worse. He exposes their resulting campaign to dismantle the American free-market system and forfeit our national sovereignty. But he draws on the examples of Ronald Reagan and the GOP's Contract with America to show how conservatives can unite behind this country's most cherished principles and act now to get America back on the right track[while we still can.

Six-time New York Times bestselling author, FOX News star, and radio host Mark R. Levin [trounces the news media] (The Washington Times) in this timely and groundbreaking book demonstrating how the great tradition of American free press has degenerated into a standardless profession that has squandered the faith and trust of the public. Unfreedom of the Press is not just another book about the press. In [Levin's finest work] (Breitbart), he shows how those entrusted with news reporting today are destroying freedom of the press from within[not through actions of government officials, but with its own abandonment of reportorial integrity and objective journalism. With the depth of historical background for which his books are renowned, Levin takes you on a journey through the early American patriot press, which proudly promoted the principles set forth in the Declaration of Independence and the Constitution. This is followed by the early decades of the Republic during which newspapers around the young country were open and transparent about their fierce allegiance to one political party or another. It was only at the start of the Progressive Era and the 20th century that the supposed [objectivity of the press] first surfaced, leaving us where we are today: with a partisan party-press overwhelmingly aligned with a political ideology but hypocritically engaged in a massive untruth as to its real nature.

The march to the Trump presidency began in 1988, when Rush Limbaugh went national. Brian Rosenwald charts the transformation of AM radio entertainers into political kingmakers. By giving voice to the conservative base, they reshaped the Republican Party and fostered demand for a president who sounded as combative and hyperbolic as a talk show host.

In this essential exploration of the American heartland, Kayleigh McEnany presents an eye-opening collection of interviews and stories about the powerful grassroots populist movement of frustrated Americans left behind by the government that changed the landscape of political campaigns forever Kayleigh McEnany spent months traveling throughout the United States, conducting interviews with citizens whose powerful and moving stories were forgotten or intentionally ignored by our leaders. Through candid, one-on-one conversations, they discussed their deeply personal stories and the issues that are most important to them, such as illegal immigration, safety from terrorist attacks, and religious freedom. The New American Revolution chronicles both the losses of these grassroots voters, as well as their ultimate victory in November 2016. Kayleigh also includes interviews with key figures within President Trump's administration[including Ivanka Trump, Secretary Ben Carson, Jared Kushner, and many more]and their experiences on the road leading up to President Trump's historic win. Kayleigh's journey takes her from a family cabin in Ohio to the empty factories in Flint, Michigan, from sunny Florida to a Texas BBQ joint[and, of course, ends up at the White House. The collective grievance of the American electorate reveals a deep divide between leaders and citizens. During a time of stark political division, Kayleigh discovers a personal unity and common thread of humanity that binds us nevertheless. Through faith in God and unimaginable strength, these forgotten men and women have overcome, even when their leaders turned their heads. An insightful book about the triumph of this powerful movement, The New American Revolution is a potent testament to the importance of their message.

Every Christian parent faces a daily dilemma: How can I bring up my children to be people of character in a culture that undermines my values? Media and cultural expert Rebecca Hagelin knows how overwhelming it is to raise kids in today's morally toxic environment. In this practical guidebook, she helps you: Learn how to battle the culture, not your child Know the difference between your principles and your preferences Understand how marketers target your children and how to keep them safe online Develop and follow your [mother's intuition] and [father-knows-best] instincts Teach your children to be good stewards of money, time, and work You must fight to protect your children's innocence, their childhood, their character[and their future. It's a battle worth fighting. And it's a battle you can win.

SUMMARY of Sean Hannity's LIVE FREE OR DIE - America (and the World) on the Brink Sean Hannity, the author of Live Free or Die America (And the World) On the Brink, is a self-proclaimed conservative writer, media personality, who is currently the host of Hannity on Fox News and the nationally syndicated radio program, The Sean Hannity Show, a Christian, who used his book to uncover and reveal the current events in the political scene towards the United States of America's forthcoming Presidential election. He is also widely known as the author of three New York Times bestsellers - Conservative Victory, Deliver Us from Evil and Let Freedom Ring. The author used the book to let Americans and readers to get the actual happenings and have a vigorous insight into the United States of America's political elements. His primary focus is on the heavy opposition and endless attacks on the administration and personality of President Donald Trump, majorly from the Democrats, Leftists, and Progressives. Again, the original work sought to display the conspiracies, collision, and politics in which the political and pull of power events is based, mainly between President Donald Trump, Democrats, and the Media.The author analyzed how power skirmish and eagerness of the Democrats to take over the presidency and oust Donald Trump started and deliberately grew all of a sudden over the period of President Trump's 4 years remarkable tenure, and how Donald Trump, in return, through his formidable polices and zeal to make America Great Again, completely outsmarted the Democrats and the media. A political battle that had led to a cycle of defamation, indictments, and counter-accusations from both sides of the political divide. He categorized his book into Ten Chapters and they include: 1) A Republic-If You Can Keep It2) Welcome to Fantasyland: The Democrats' 2020 Agenda3) Deep State I: Russian Collusion-The Hoax of the Century4) Enemy of the People: The Hate-Tump Media Mob5) Trump's Response to the Coronavirus and America's Great Comeback This book thoroughly delivers a comprehensive and well-explained dialogue and an overview of Sean Hannity's original work. This summary will help readers gain substantial knowledge of what the author meant by Live Free or Die: America (and the World) on the Brink. Therefore, based on each chapter's key themes and overview, this book will strictly provide the readers with an adequate understanding of Donald Trump's Administration. PLEASE TAKE NOTE: It should be well understood that this summary and analysis is not the original book nor in any way affiliated to the original work of the author. Also, it does not in any way ridicule or criticize the work of Sean Hannity, rather it makes the book a successful guide to help readers understand the need for a better leadership and administration.
