2726 Words11 Pages. UNESCO’s four pillars of education (learning to know, learning to do, learning to live together, and learning to be) are guiding principles for educational change that emphasize a holistic and sustainable approach – a higher order set of skills to aspire for self-actualization to better meet our complex and ever-changing world. The pillars cut through cultural differences and unify all ages; they emphasize the basic individual right towards a new vision of life-long ...
